Product information "DC Magnetron Power Supply MPS1500DC"

DC Magnetron Power Supply MPS1500DC

Max. DC power: 1500 W (1,5 kVA)

with ultra-fast arc detection and handling;

dual output configuration for up to two independent sources;

one output active at a time

max. output voltage: 1000 V

Max. current: 3 A

ignition voltage: 1200 V

Regulation: power, current, voltage

Arc-detection: < 95 ns

Interfaces: A/D, RS232 Modbus-RTU, Ethernet

Mains: 1 x 180-265 V AC

Dimensions: 19", 2 U
