Product information "DC Pulse Power Supply MPS1500P"

Magnetron DC Puls Power Supply MPS1500P

Max. DC power: 1500 W (1,5 kVA)

with ultra-fast arc detection and handling;

dual output configuration for up to two independent sources

max. output voltage: 1000 V

max. power in pulse mode: 1050 W

Max. current: 3 A

ignition voltage: 1200 V

pulse frequency 10 kHz ... 300 kHz

min. pulse width 2 us

duty cycle 3 ... 70%

Regulation: power, current, voltage

Arc-detection: < 95 ns

Interfaces: RS232 ; (optional: A/D + Ethernet; alternatively: RS485)

Mains: 1 x 180-265 V AC

Dimensions: 19", 2 U
